

## Short Game Workshop Overview

Duration: 2 Hours

Overview:

Our intensive Short Game Workshop is designed to elevate your skills around the greens.

This workshop is limited to a maximum of four students to ensure personalized attention and maximum improvement. The workshop will focus on mastering various aspects of the short game.

### **Assessment Using Flightscope:**

The workshop will begin with a comprehensive assessment using Flightscope, a cutting-edge technology for analyzing ball flight and club performance. Flightscope will provide detailed insights into your distance control with different clubs, helping to optimize your approach shots, chips, and pitches.

### **Additional Focus:**

Students will focus on:

- Different short game shots (e.g., chips, pitches, bunker shots)
- Distance control on approach shots with various clubs
- Shot selection and execution based on different lies and situations around the green

Based on assessment results, Karina will provide targeted drills and exercises to improve shortgame mechanics, consistency, and accuracy.

Investment: \$200
